

To our customers

Softing AG  
Richard-Reitzner-Allee 6  
D-85540 Hair  
Germany

January 2022

## Softing complies with the EU directive "WEEE II"

EU Directive 2012/19/EU "Waste Electrical and Electronic Equipment", implemented in Germany by the "Elektro- und Elektronikgerätegesetz" (ElektroG)

As a long-standing manufacturer of high-quality hardware products for industry and commerce, Softing is committed to the goals of environmental protection. This also includes the environmentally friendly disposal and recycling of our products.

These products are marked with the symbol of the crossed-out wheelie bin. Under no circumstances may they be disposed of by the user together with unsorted municipal waste but must be separated from them and disposed of properly.

In order to keep the logistics effort as low as possible, we offer our customers to take back all affected Softing hardware products for free, which are sent to Softing free of charge. If applicable, batteries (including accumulators) may remain in the device. However, the transport of batteries is only permitted if they are undamaged. The relevant transport regulations for batteries must be observed. Kindly note: Before you send devices to us, please make sure that any existing personal data is deleted, Softing assumes no liability for this.

If you would like to make use of this return service, please contact us (Email: [recycling@softing.com](mailto:recycling@softing.com), Phone +49 89 456560).

Softing cooperates with well-known specialized companies certified according to ElektroG for disposal and recycling.

Softing is registered with the *Stiftung Elektro-Altgeräte Register* (EAR) under the WEEE-Reg.-Nr.

DE 3925 7114

Softing IT Networks GmbH is registered with its products under the WEEE Reg. No.

DE 1651 3215
